Brief Description of Arguments to be Presented:

McMurtry fails to disclose or render obvious "using translational movement of the coordinate positioning machine to move the probe along an at least part nominally spiral path about an axis which intersects the object," as recited in independent claim 1.

Will discuss amending claim 1 to further recite "using translational movement of the coordinate positioning machine to provide servoing of the probe along a servor direction vector."

Will discuss similar features of claims 14 and 17

An interview was conducted on the above-identified application on _____

NOTE:

This form should be completed by applicant and submitted to the examiner in advance of the interview (see MPEP § 713.01).

This application will not be delayed from issue because of applicant's failure to submit a written record of this interview. Therefore, applicant is advised to file a statement of substance of this interview (37 CFR 1.133(b)) as soon as possible.
